Career Objective

- Motivated MCA student with a strong foundation in programming, databases, data analytics, and software development. Skilled in Python, Java, SQL, Power BI, and Excel, with hands-on experience through academic projects. Seeking an entry-level opportunity to apply my technical and problem-solving skills, learn emerging technologies, and contribute to innovative technology solutions while growing as an IT professional.

Education

Galgotias University, Greater Noida <i>Master of Computer Applications (MCA) — Current CGPA: 7.8</i>	Present
Sher Shah Collage, Sasaram (Aff. VKUS, ARA) <i>Bachelor of Computer Applications (BCA) — Percentage: 70%</i>	2021 - 2024
Pragya Nikatan Public School, Sasaram (CBSE) <i>Intermediate</i>	2020 - 2021
Dav Public School, Sasaram (CBSE) <i>High School</i>	2018 - 2019

Experience

AICTE - EduSkills Virtual Internship <i>Python Full Stack Developer</i> – Designed and built full-stack web applications using Python, Django, HTML, CSS, and JavaScript. – Developed RESTful APIs and connected frontend components to SQL/PostgreSQL databases.	2026
AICTE - EduSkills Virtual Internship <i>Data Analytics with Python & Power BI</i> – Worked on Python, Power BI, and data analysis projects. – Created interactive dashboards and gained insights from complex datasets. – Strengthened skills in business intelligence and data-driven decision making.	2026

Projects

URL Abuse Prevention System

- * Developed a full-stack MERN application to analyze URLs and identify potentially malicious or unsafe websites.
- * Integrated the Google Safe Browsing API to detect malware and phishing threats in real time.
- * Implemented a custom risk-scoring algorithm that evaluates URLs based on security indicators such as HTTPS usage, URL length, IP-based URLs, special characters, and suspicious patterns.

Spam Message Detection

- Built a Spam Message Detection system using Machine Learning to classify messages as spam or ham with high accuracy.
- Performed data preprocessing, feature extraction, and model training to improve detection efficiency and automate message filtering.

Technical/Key Skills

Programming & Tools: Python, React, JavaScript, Express.js, Node.js, HTML, CSS, MySQL, Git/Github, Data Visualization, (Solved 100+ DSA Problems on Leetcode).

Soft Skills: Communication, Problem-Solving, Team Leadership, Adaptability, Critical Thinking.

Certifications

- AI – Data Engineering Analyst Certification – Skill India Digital Hub / NASSCOM (2026)
- Machine Learning Certification – AWS Academy (2026)
- Software Test Engineer Certification – Skill India Digital Hub / NASSCOM (2026)
- Microsoft Excel Certification – Coursera (2025)
- Kali Linux Certification – Coursera (2025)
